Forward-looking statements

Today's presentation may contain, in addition to historical information, forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995.

These forward-looking statements are based on our current assumptions, expectations and projections about future events which reflect the best judgment of management and involve a number of risks and uncertainties that could cause actual results to differ materially from those suggested by our comments today. You should review and consider the information contained in our filings with the SEC regarding these risks and uncertainties.

Mastercard disclaims any obligation to publicly update or revise any forward-looking statements or information provided during today's presentations.

Any non-GAAP information contained in today's presentations is reconciled to its GAAP equivalent in the appendices at the end of this presentation.

Strategy

Michael Miebach

Chief Executive Officer

Market trends underscore our opportunities within payments and services

Commerce

Accelerated digitization

Demands for seamless, instant and personalized experiences

B2B modernization

Society

Scaling of digital public infrastructure

Evolving regulatory landscape

Focus on environmental and social outcomes

Technology

Acceleration of AI adoption

Cybersecurity and identity advancements

Evolution of new business models

We continue to benefit from market tailwinds and navigate local market dynamics

Our strategy is strong, focused and being executed

OUR STRATEGY

Grow our core

Diversify into new customers and geographies

Build new areas for the future

STRATEGIC PRIORITIES

**Consumer
payments**

**Commercial and
new payment
flows**

**Services and
other solutions**

ENABLED BY

People | Brand | Data & AI | Technology | Franchise | Doing well by doing good

All in support of our customers

Advancing key initiatives across each strategic priority

Consumer payments

Capturing the significant secular opportunity

Driving brand preference through compelling consumer experiences

Investing in the future and driving market transformation

Commercial and new payment flows

Accelerating secular shift in commercial point-of-sale purchases

Capturing commercial invoiced payments

Modernizing disbursements and remittances

Services and other solutions

Differentiating our payments capabilities

Enhancing and expanding our suite of services

Scaling distribution

Together, our priorities generate a reinforcing virtuous cycle

Underpinning our success are a series of strategic enablers

Key takeaways

**Capitalizing on
structural tailwinds**

**Driving further growth
through Mastercard
actions**

**Fueling the virtuous
cycle across payments
and services**

Consumer payments

Jorn Lambert

Chief Product Officer

Consumer payment flows present a long runway of opportunity for sustained growth

SAM of consumer transaction value¹

VOLUME IN \$T

SAM of consumer # transactions¹

#T

1. Serviceable Addressable Market (SAM) are flows addressable with existing capabilities, or those that are in advanced stages of development; Source: 2024 – Oxford Economics, McKinsey and Mastercard internal analysis

2. Digital bill payments, wallet top-up, and payments powered by A2As such as legacy ACH

3. China SAM predominantly card value; Source: 2024 – PBC, Retail Banking Research (2023), and Mastercard internal analyses

4. Mastercard, Visa, American Express, Discover, JCB, domestic schemes, private labels

Unparalleled reach and the payments + services virtuous cycle are at the heart of our network

Anywhere, anytime

Most geographically distributed payment network

220+
markets

3.4B
credentials¹

Any way you choose

Largest acceptance network

~150M
acceptance
locations²

250M+
digital access
points³

~200B
card
transactions⁴

1. Worldwide Mastercard and Maestro-branded cards as of September 30, 2024
2. Acceptance locations include payment facilitator sub-merchant locations
3. Digital access points represent the sellers behind the marketplaces and staged wallets that accept Mastercard as a funding credential for purchases (including China)
4. Q4 2023-Q3 2024, includes purchase and cash transactions from all Mastercard-branded programs

Strategic initiatives

Capturing the
significant secular
opportunity

Driving brand
preference through
compelling consumer
experiences

Investing in the future
and driving market
transformation

The secular shift starts with cash displacement...

AI-powered fraud detection

Driving brand preference through compelling consumer experiences

Digital First

Comprehensive digital functionality across the consumer journey

The Mastercard Collection

Rich offering of priority access for affluent consumers

Acquire digital card

Apply and enroll for a card digitally

Use to pay

Transact digitally across channels

Manage spending

Manage alerts and dispute transactions digitally

Engagement benefits and offers

Early view and access benefits, offers and more

Travel

Premium airport experiences

Entertainment

Preferential access to event tickets

Dining

Priority reservations in top restaurants

Enhancing and delivering value across the ecosystem

Enhance security and functionality

Replacing card numbers with **secure tokens**

Scaling **authentication**, including biometrics with 3D Secure and Passkeys

Streamlining online **checkout** by eliminating manual entry

Converting **Maestro to Mastercard Debit** to enable new functionality and reach

Optimize our install base

Increasing our **switching penetration** through our differentiated services

Increasing **approval rates** by leveraging inputs from our vast network

Lifting **spend and activation rates** through personalized campaigns and data driven strategies

Deliver on the brand promise

Delivering long term growth through market transformation and extending the reach of the network

Token economy

Delivering security, privacy and control for hyperconnected consumers and unlocking new business models

-  Tokenize credentials   **Mastercard Digital Enablement Service**
-  Tokenize identity   **Payment passkeys**
-  Tokenize assets   **Multi-Token Network**
-  Tokenize data   **Consent tokens**

Modernized card switch

Meeting the needs of a more complex world and real-time economy

-  Real-time clearing, rapid settlement, immediate payout
-  Leading functionality, resiliency, security, and services
-  Deployable anywhere with full flexibility

Key takeaways

**Extending network reach
to more merchants and
consumers**

**Delivering digital
functionality and
consumer experiences**

**Securing the future by
leaning into market
transformation**

Differentiating and driving long-term growth through our unique network

Commercial and new payment flows

Raj Seshadri

Chief Commercial Payments Officer

Commercial and new payment flows present a significant opportunity with substantial runway to fuel Mastercard's growth

Commercial

Point-of-sale purchases

Payments by businesses, employees, or governments at card-accepting merchants or suppliers at a point-of-sale

\$80T Serviceable Market¹
(including \$3T carded)

Invoiced payments

Payments by businesses or governments (buyers) to known counterparties (suppliers)

Disbursements and remittances

Mastercard Move

Money transfers to consumers from consumers, businesses, or governments

\$20T Serviceable Market¹

We grow commercial payments by extending secular shift, winning share and enhancing value through services and solutions

We are capturing commercial point-of-sale purchases to drive secular shift and grow market share

Point-of-sale purchases \$16T cash and check + \$1T carded

Differentiate propositions

Cards

Segment-specific value propositions
Value-added services and solutions
Business payment controls

Platforms

Expense management
Concur **emburse** **NAVAN**
Small business platform solutions

Expand distribution

Financial institutions

New geographies

Saudi Arabia

China

Cambodia

New channels

Direct to corporate sales
New distribution partners

Small business financial inclusion

Build acceptance

Acceptance

via channel partners

Point-of-sale innovation

Solve for combined acceptance and
issuance needs of small businesses

Fit-for-purpose network rules

Small businesses

Medium enterprises

Large corporations

Our approach is delivering wins with customers and unlocking commercial card flows

Portfolio flips with
financial institutions

Renewals and expansions
with financial institutions

Helping financial
institutions sell

We are addressing the commercial invoiced payments opportunity by driving engagement across buyers and suppliers

Invoiced payments \$8T check + \$53T EFT/ACH/wire + \$2T carded

Buyer enablement

- Leverage virtual cards
- Drive card adoption and activation
- Initiate card-to-account payments
- Automate payables reconciliation

Ecosystem enablement

- Analyze accounts payable
- Enable straight-through processing
- Configure cards and controls
- Establish flexible pricing
- Develop fit-for-purpose network rules

Supplier enablement

- Engage suppliers
- Educate / partner with acquirers
- Integrate with gateways
- Automate receivables reconciliation

Simplify workflows

Release working capital

Improve data reconciliation

We are extending our success in travel to select attractive verticals

Travel

**Corporate travel and
expense and leisure
travel verticals

Virtual card platform
Optimized economics
Enhanced travel data
Fit-for-purpose features

Extend into select high potential verticals

High commercial spend
High in cross-border
Cash/check heavy
Repeatable model
Aggregation points

B2B marketplaces

Consumer packaged goods

Education

Healthcare

Trade and logistics

Pharma

We are embedding payments into widely used platforms and workflows to capture invoiced payments

Procure to pay

Order to cash

Embedded Mastercard In Control® into leading platforms¹ to enable virtual card payments

ORACLE

GEP®

SAP®

coupa

Top 4 worldwide leaders

in SaaS and cloud-enabled procurement applications²

Significant opportunity in disbursements and remittances that we target with an extensive set of capabilities

Mastercard Move \$20T

Tapping into use cases ...

... powered by strong foundations

We are driving growth in disbursements and remittances by scaling use cases and expanding Mastercard Move's reach

Differentiate propositions

Expand network

Key takeaways

Continue to drive secular shift to cards and win market share in point-of-sale purchases

Innovate to further accelerate secular shift in invoiced payments

Scale Mastercard Move use cases to penetrate disbursements and remittances

Continuing to drive penetration of \$100T addressable market

Services

Underpinned by **privacy, data** and **tech responsibility**

Synergies with payments and across services drive high impact solutions

Consumer credit example

Our services products target large and growing addressable revenue pools as priorities for growth

1. Source: 2024 – Industry relevant 3rd party data sources and Mastercard analysis; does not directly align to Mastercard value-added services and solutions net revenue. Includes gateway, processing, and digital and authentication solutions; open banking, real time payments, cross-border services and bill pay solutions not included

2. TAM = Target Addressable Market (markets that we can serve with existing capabilities and areas of growth for MA)

3. SAM = Serviceable Addressable Market (markets that we can serve with existing capabilities or those that are in advanced stages of development)

4. Mastercard 2024 total value-added services and solutions net revenue forecast as of October 31, 2024; includes acquisitions closed as of October 31, 2024

Network expansion continues to power growth in services

Network-linked services¹

- Authentication solutions
- Fraud solutions
- Operational insights
- Dispute resolution solutions
- Portfolio analytics
- Cardholder benefits
- Resiliency solutions
- Processing and gateway

Network-linked services revenue²

~60%
of total services

17%
CAGR³

1. Not an exhaustive list, for illustrative purposes only

2. Value-added services and solutions network-linked net revenue

3. 2022-2024 CAGR on a currency-neutral basis. Refer to Appendix A for reconciliation to GAAP reported amounts

We are extending across the value chain to deliver services beyond the transaction and expand our addressable market

In **Security Solutions** alone, we have converted ~\$30B of TAM to SAM since 2019

1. Pending the close of the planned acquisition of RF Ultimate Parent, Inc. ("Recorded Future"), which is expected to be completed by Q1 2025, subject to regulatory approval and other customary closing conditions

We are leveraging distribution at scale to deepen market penetration and increase share of wallet for services

Technology

- Network rails
- A2A rails
- Open Banking rails
- SaaS platforms
- Gateways
- Processing platforms

More transactions

and

More services per transaction

Customer reach

- Dedicated salesforces
- Global account teams
 - Financial institutions
 - Fintechs
 - Merchants
 - Governments

More customers

and

More services per customer

Partnerships

- Technology platforms
- System integrators
- Acquirers/PSPs
- Processors
- ERP systems
- Other networks

More partnerships

and

More services per partner

Key takeaways

**Large and growing
revenue opportunity**

**Differentiated data,
products and
distribution**

**Focused approach to
growth at scale**

Significant runway for ongoing growth

Market perspective

Linda Kirkpatrick
President, Americas

Ling Hai
President, Asia Pacific, Europe, Middle East and Africa

Mastercard's business is geographically diverse

Execution of our strategy across all markets is enabling our growth

Capture secular shift	Win market share	Diversify with services
 Growing acceptance in consumer and commercial flows	 Expanding volumes and transactions with our customers	 Embedding data driven insights to drive customer value
 Expanding digital capabilities	 Optimizing our portfolios	 Ensuring safety and security across the ecosystem
 Growing in new verticals	 Differentiating with our products and capabilities	 Expanding brand agnostic capabilities across customers

Tremendous secular runway exists across all markets

United States

Spain

Mexico

South Africa

Mastercard has grown market share globally across all products

Financial perspective

Sachin Mehra
Chief Financial Officer

Delivering solid net revenue growth¹

1. 2024 forecast based on three quarters of actuals and Q4 2024 guidance as of October 31, 2024; includes acquisitions closed as of October 31, 2024
2. As reported
3. Growth rate on a currency-neutral basis. Refer to Appendix B for reconciliation to GAAP reported amounts

2022-2024 Performance – on track to achieve/surpass objectives¹

	Current Estimate	Current Estimate Ex. Russia ²	Performance Objectives ³
Net Revenue CAGR ⁴	17%	19%	High-teens
Annual Operating Margin %	Minimum 50%		Minimum 50%
EPS CAGR ⁴	25%	27%	Low-twenties

1.

All growth rates are on a currency-neutral basis using FX of 2021 base year and exclude acquisitions closed after October 2021; 2024 forecast based on three quarters of actuals and Q4 2024 guidance as of October 31, 2024

2.

In March 2022, Mastercard suspended business operations in Russia. Metrics do not include net revenue derived from business conducted within, into and out of Russia for periods prior to March 2022, as well as associated expenses

3.

As of Q4 2021 Earnings

4.

Adjusted to exclude the impact of gains and losses on our equity investments, Special Items (which represent litigation judgments and settlements and certain one-time items) and the related tax impacts on our non-GAAP adjustments. Refer to Appendix C for reconciliation to GAAP reported amounts

The evolution of our business

		2020	2024 ¹
	% of net revenue generated outside of the U.S.	67%	70%
	% of total transactions that we switch ²	60%	69%
	Contactless as a % of in-person transactions ³	33%	71%
	Commercial % of GDV ⁴	11%	13%
	Growing acceptance locations ²	~75M	~150M ⁵
	Value-added services and solutions % of net revenue	35%	38%

1. For the nine months ended September 30, 2024; contactless for the three months ended September 30, 2024; acceptance locations as of September 30, 2024
2. Excluding Russia
3. Contactless transactions as a percentage of in-person transactions, excluding Venezuela and Russia
4. Mastercard Commercial credit and debit less prepaid; all volumes exclude Maestro/Cirrus and Russia
5. Acceptance locations includes payment facilitator sub-merchant locations

Strong long-term growth potential across multiple vectors

Enabled by a highly competitive suite of global products and solutions
