Operational Performance Data Footnote

Current quarter payments volume and other select metrics are provided in the operational performance data supplement to provide more recent operating data. Service revenue continues to be recognized based on payments volume in the prior quarter.

Total transactions represent payments and cash transactions as reported by Visa clients on their operating certificates. Processed transactions include payments and cash transactions, and represent transactions involving cards and other form factors carrying the Visa, Visa Electron, V PAY, Interlink and PLUS brands processed on Visa's networks.

Reported volume, transaction and card information may be updated to reflect revised client submissions or other adjustments. Prior-period updates are not material. Figures may not recalculate exactly due to rounding. Percentage changes and totals are calculated based on unrounded numbers. Constant-dollar growth rates exclude the impact of foreign currency fluctuations against the U.S. dollar in measuring performance.

The data no longer includes volumes and transactions for Russia clients starting the three months ended June 30, 2022 and accounts and cards starting the three months ended March 31, 2022.

Free Cash Flow

Cash, cash equivalents and investment securities were \$20.8 billion as of March 31, 2024.

(in millions)

Calculation of Free Cash Flow	Q2 2024	Q2 2024 YTD
Net cash provided by operating activities	\$4,538	\$8,152
Less: capital expenditures	(281)	(548)
Free cash flow ⁽¹⁾	\$4,257	\$7,604

⁽¹⁾ Free Cash Flow is cash provided by operating activities adjusted to reflect capital investments made in the business.

(in millions)

Returns to Shareholders	Q2 2024	Q2 2024 YTD
Share repurchases ⁽²⁾	\$2,735	\$6,094
Dividends	\$1,060	\$2,120

⁽²⁾ Share repurchases include applicable taxes.

Note: Management believes that this presentation is useful to measure Visa's generation of cash available to first re-invest in the business, and then return excess cash to shareholders through share repurchases and cash dividends.

Other Notable Items

- On January 16, 2024, Visa announced it completed its acquisition of Pismo, a global cloud-native issuer processing and core banking platform. With the transaction complete, the combination of Visa and Pismo will provide clients with core banking and card-issuer processing capabilities across all product types via cloud-native APIs. Pismo's platform will also enable Visa to provide support and connectivity for emerging payment schemes and RTP networks for financial institution clients.
- On March 26, 2024, Visa announced it agreed to a landmark settlement with U.S. merchants, more than 90 percent of which are small businesses, lowering credit interchange rates and capping those rates into 2030. The interchange multidistrict litigation injunctive relief class settlement also provides updates to several key network rules, giving merchants more choice in how they accept digital payments. The attorneys' fees and other expenses provided for in the settlement will be paid from existing funds in the litigation escrow account and therefore will not result in a class B-1 conversion rate adjustment. The settlement is subject to approval by the court.
- On April 8, 2024, Visa announced the commencement of an exchange offer for any and all outstanding shares of its class B-1 common stock for a combination of Visa's class B-2 common stock, Visa's class C common stock and, where applicable, cash in lieu of fractional shares. The class B-1 exchange offer will expire at one minute after 11:59 p.m. New York City time on May 3, 2024, unless extended or earlier terminated by Visa.

Appendix

Non-GAAP Financial Measures

We present our results and our financial outlook on a non-GAAP basis, which exclude certain items that we believe are not representative of our continuing operations, as they may be non-recurring or have no cash impact, and may distort our longer term operating trends.

We exclude the following from our GAAP financial results to arrive at our non-GAAP financial results:

- *Gains and losses on equity investments.* Gains and losses on equity investments include periodic non-cash fair value adjustments and gains and losses upon sale of an investment. These long-term investments are strategic in nature and are primarily private company investments. Gains and losses associated with these investments are tied to the performance of the companies that we invest in and therefore do not correlate to the underlying performance of our business.
- *Amortization of acquired intangible assets.* Amortization of acquired intangible assets consists of amortization of intangible assets such as technology, customer relationships and trade names acquired in connection with business combinations executed beginning in fiscal 2019. Amortization charges for our acquired intangible assets are non-cash and are significantly affected by the timing, frequency and size of our acquisitions, rather than our core operations. As such, we have excluded this amount to facilitate an evaluation of our current operating performance and comparison to our past operating performance.
- *Acquisition-related costs.* Acquisition-related costs consist primarily of one-time transaction and integration costs associated with our business combinations. These costs include professional fees, technology integration fees, restructuring activities and other direct costs related to the purchase and integration of acquired entities. These costs also include retention equity and deferred compensation when they are agreed upon as part of the purchase price of the transaction but are required to be recognized as expense post-combination. We have excluded these amounts as the expenses are recognized for a limited duration and do not reflect the underlying performance of our business.

Non-GAAP Financial Measures - continued

- *Litigation provision.* Litigation provision includes significant accruals related to certain legal matters that are not covered by the U.S. retrospective responsibility plan or the Europe retrospective responsibility plan (uncovered legal matters) and additional accruals associated with the interchange multidistrict litigation which are covered by the U.S. retrospective responsibility plan (U.S. covered litigation). Litigation provision associated with these matters can vary significantly based on the facts and circumstances related to each matter and do not correlate to the underlying performance of our business. During the three months ended March 31, 2024 and the three months ended June 30, 2023, we have excluded these amounts to facilitate a comparison to our past operating performance.
- *Lease consolidation costs.* During the three months ended March 31, 2024, we recorded a charge within general and administrative expense associated with the consolidation of certain leased office spaces. We have excluded these amounts as they do not reflect the underlying performance of our business.

We also present our results and financial outlook on an adjusted constant-dollar basis. Measures presented on an adjusted-constant dollar basis are non-GAAP financial measures that have been further adjusted to exclude the following:

- impact of foreign exchange rates, which is calculated by using a fixed current year U.S. dollar/foreign currency exchange rate for each local currency for the periods presented; and
- impact of acquisitions, which include operating revenue and expenses of the acquired entities that were not reflected in the full quarter of the previous year and the incremental interest expense or forgone interest income as a result of funding the acquisition through debt or cash, respectively, which management believes enhances the comparability of our results. These amounts will be adjusted until we lap the quarter that the entity was acquired in, at which time there will be comparable results within each reported period.

We believe presenting these metrics provides investors and management with additional insight into our ongoing and future operating performance. Non-GAAP financial measures should not be relied upon as substitutes for, or considered in isolation from, measures calculated in accordance with GAAP. See the next slides for the reconciliations of GAAP to non-GAAP and adjusted constant-dollar results and financial outlook.

Forward-Looking Statements

Our earnings release and related materials contain forward-looking statements within the meaning of the U.S. Private Securities Litigation Reform Act of 1995 that relate to, among other things, our future operations, prospects, developments, strategies, business growth, anticipated timing and benefits of our acquisitions, financial outlook, and the completion of the class B-1 exchange offer. Forward-looking statements generally are identified by words such as “anticipates,” “believes,” “estimates,” “expects,” “intends,” “may,” “projects,” “outlook,” “could,” “should,” “will,” “continue” and other similar expressions. All statements other than statements of historical fact could be forward-looking statements, which speak only as of the date they are made, are not guarantees of future performance and are subject to certain risks, uncertainties and other factors, many of which are beyond our control and are difficult to predict.

Actual results could differ materially from those expressed in, or implied by, our forward-looking statements due to a variety of factors, including, but not limited to:

- impact of complex and evolving global regulations;
- increased oversight and regulation of the global payments industry and our business;
- impact of government-imposed obligations and/or restrictions on international payment systems;
- impact of laws and regulations regarding the handling of personal data and information;
- outcome of tax, litigation and governmental investigation matters, or changes in tax laws;
- increasingly intense competition in the payments industry, including competition for our clients and merchants;
- continued efforts to lower acceptance costs and challenge industry practices;
- our ability to maintain relationships with our clients, acquirers, processors, merchants, payments facilitators, ecommerce platforms, fintechs and other third parties;
- brand or reputational damage;
- impact of global economic, political, market, health and social events or conditions, including conflicts and wars;
- our aspirations to address corporate responsibility and sustainability matters and considerations;
- exposure to loss or illiquidity due to settlement guarantees;
- proliferation and continuous evolution of new technologies and business models in the payments industry;
- a disruption, failure, breach or cyber-attack of our networks or systems;
- risks, uncertainties and the failure to achieve the anticipated benefits with respect to our acquisitions, joint ventures and other strategic investments;
- the conversions of our class C common stock issued in the class B-1 exchange offer or our outstanding series A, B and C preferred stock into shares of class A common stock would result in voting dilution to, and could impact the market price of, our existing class A common stock; and
- other factors described in our filings with the U.S. Securities and Exchange Commission, including our Annual Report on Form 10-K for the year ended September 30, 2023, and any subsequent reports on Forms 10-Q and 8-K.

Except as required by law, we do not intend to update or revise any forward-looking statements as a result of new information, future events or otherwise.
